OTTAWA, June 7.

Foster assumed the duties of minister of finance to-day.

Lord Lansdowne cables Mayor Stewart: "I deeply regret the Hull fire; put me down for £50."

The reports from all parts of the Ottawa valley and district around Montreal indicate the terrible nature of yesterday's storm, and the great damage done to property. The school house at Manatic was destroyed and twenty children buried.

The period for receiving tenders for Indian supplies aggregating \$250,000 closed to-day. Several tenders were received. A large number of interested parties are in the city waiting the official announcements, including representatives of I. G. Baker & Co. of Montana.

OTTAWA, June 8.

The impression prevails here that Sir John will recommend one of the old Ontario guards for a cabinet position soon to be vacant by McLellans acceptance of the governorship of Nova Scotia. A Kirkpatrick's chances appear best, Haggard next and Peter White third.

OTTAWA, June 10.

Quietly and unostentatiously, in keeping with the day, Lord and Lady Stanley, of Preston, and suite arrived here this morning. They were not expected here before Monday evening, or Thursday morning, but the Sarmaitan upset all calculations by making her fastest trip on record. The governor and suite arrived at the capital this morning. Only servants of the vice-royal household, and a few railway men were present when the train came in.

OTTAWA, June 11.

Lord Stanley made his first public address in Canada to-day, and the impression he made was most favorable. He is an excellent speaker, his tones being clear and resonant, and his thoughts are clothed in graceful language. Chief Justice Ritchie administered the oaths of allegiance and office to the new governor, and presented him with the bible as a souvenir of the occasion.

WINNIPEG, June 7.

Lariviere is definitely in the field for St. Boniface and will undoubtedly be elected by a large majority. Complaints as to outrages on the voters' lists and their general manipulation in the interests of the grip party are coming in from all parts of the province.

WINNIPEG, June 12.

Tracklaying on the R. R. V. R. commences on Monday, and will be rushed through with all possible speed.

There was a strong rumor in liberal circles on Monday night that Luxton would withdraw from the contest in South Winnipeg. Mr. N. F. Hazel is the conservative candidate for Shoal Lake.

N. F. Davin arrived here on Monday from Ottawa, on his way to Regina. In conversation with a Call reporter he said the Regina and Long Lake railway would be built as far as Saskatoon this season. Being asked who would be the new minister of interior he said: "It is hard to say, but my opinion is that it is morally certain that Dewdney will get the position."

WINNIPEG, June 15.

The emperor of Germany died last night. Senator Schultz has been appointed lieutenant-governor of Manitoba from July 1st.

The names of the successful tenderers for Indian supplies have not yet been published.

W. F. Luxton told a Call reporter that he would probably retire from the South Winnipeg contest.

Hanlan beat Trickett by six lengths in a sculling race on Fitzroy river, New South Wales, on June 12th.

Alex. Smith and his wife Rachael have been arrested at Parkdale, a suburb of Toronto, Ont., for the murder of Jas. Priestman at that place in August last.

BELLEVILLE, June 8.

Hayter Reed, Indian commissioner of Regina, was married here yesterday to Miss Georgina Horton, daughter of the late Col. Horton. Major Crozier, late of the N. W. M. P., was groomsmen.

MONTREAL, June 11.

It is reported on good authority that W. B. Scarth, M. P., will be called to the senate on the appointment of Dr. Shultz to the lieutenant-governorship of Manitoba.

PILOT MOUND, June 7.

Six buildings were burned this morning. The loss is about \$15,000.

REGINA, June 11.

Preparations for the executions of Gaddy and Racette on the 13th inst. were completed yesterday. Both prisoners took their daily exercise, walking inside the barracks' enclosure. To-day Gaddy did not leave his cell. There is a strong impression that Gaddy will break down and will have to be assisted to the gallows.

REGINA, June 13.

Gaddy and Racette were hanged at 8:15 this morning. Gaddy seemed weak, but walked to the scaffold. Racette seemed strong and in good spirits. Racette said: "I am glad they have given me a chance to speak here, as they did not at the trial. I am innocent of the crime for which I am being hanged, for I was only a witness of the murder, etc."

LOCAL.

CROPS looking magnificent.

HAIL on Friday. No damage.

P. G. GRAY left for Calgary on Thursday.

No passengers on the outgoing stage on Thursday.

JAS. WALSH, fur trader, was the only passenger on Monday's stage.

J. ROSS arrived on Thursday with freight for W. Johnstone Walker.

LUKE KELLY is building a high board fence around his property on Main street.

OLDTIMERS report the road from Calgary worse than it was ever known to be before.

THURSDAY a load of emigrants and effects came from the south and passed on to Sturgeon river.

Eggs are 80c per doz.; butter 35 to 40c; oats \$1.00 per bushel, and very little to be had at that.

C. A. LINDSAY started for Whitefish lake on Monday with supplies for the Methodist mission there.

R. JARVIS passed through on Tuesday with a farm instructor named Grass and his wife for Saddle lake.

DAN NOYES went to Calgary on Monday, having as passenger J. D. McDonald, who is going to Vancouver, B. C.

PETER ERASMUS started down the river to Victoria with a raft of lumber from Fraser & Co.'s mill, for the H. B. Co.

ON Saturday M. McCauley's team left for the Landing with R. McKee and others to work on the H. B. steamer.

W. H. CARSON, loaded for Ross Bros.; R. McKernan for self, and Jas. Cassils for self and E. Raymer arrived on Friday.

D. H. MACDOWALL, M.P. for Saskatchewan, Dr. McInnis of Banff and H. H. Taylor of the police arrived to-day from Calgary.

J. PORTE, of Ft. Saskatchewan, came in from Calgary on Thursday with a Mr. Stewart, representing Carscaden & Peck of Winnipeg.

J. H. HOLMAN, traveller for Sherey & Co., wholesale clothiers, and J. K. Whinery, of Stebart, Son & Co., arrived from Calgary on Sunday.

DR. W. WILSON, dentist, of Calgary, arrived on Sunday and will remain for a few weeks, practising his profession. He will be found at Ross' hotel.

W. J. BURNS, of Little Mountain, left Calgary on May 31st, and camped 20 miles out. He lost three horses and had not recovered them at last accounts.

JACQUES BROS., of Calgary, have rented the basement of Stewart & Bannerman's hall, and will, as soon as the weather permits, import a stock of furniture and open up a branch of their business here. One of the firm will have charge of it.

The Empire of May 30th says: "Great destitution has prevailed during the past winter among the Indians of the Cumberland district, owing to the severity of the weather. Many of them would have starved if it had not been for the H. B. Co. officials. A virulent type of measles broke out, preventing many from securing their winter stock of fish and game, and a number died." These are not treaty Indians.

Rev. G. M. LONG, while getting water from the river at Ross' landing on Tuesday evening, got his horse and cart in beyond their depth. The river being very high and current strong the horse was carried off his feet and in danger of being carried, with load and driver, down stream. After a desperate struggle the horse got to the bank, but it was too steep to get out. Climbing on the horse's back Mr. Long got him loose from the cart, which went sailing, with the barrel, down the river. Horse and man, however, got out safely. It was a pretty close call.

The river reached the highest point in the last four years on Wednesday morning. So much driftwood came down that the ferries had to stop running until the water lowered.

THE BULLETIN was in error last week in announcing the candidature of Alfred Brealey for this district. Mr. Brealey is a rancher at Beaver Dams, north of Cochrane in the Red Deer district, and will contest that constituency.

A. ROBERTSON and J. Stevens, of Clover Bar, and others, reached Blind river lately on the way to Edmonton with freight. The bridge formerly there was gone and the stream so high that they were compelled to build a raft to cross.

The town of Collingwood, on the Georgian bay, is in a fever of excitement over the discovery of natural gas. The company found gas at 150 feet, but only in limited quantities. Below the gas a strong spring of mineral water was struck. They torpedoed the hole, when an immense quantity of gas began to flow, the noise of which could be heard some distance. Iron smelting and other industries are now talked of, as the gas will give an abundant supply of cheap fuel.

A correspondent of the Calgary Tribune deplors the exceedingly low state of morals existing in the mountains along the C. P. R. There have been no less than four suicides recently in Donald and vicinity, while prostitution and drunkenness are almost unchecked, although a better order of things is beginning to prevail.

The Free Press of June 5th says: Last Friday a young Mennonite, near Plum Coulee, becoming desperate over threats to put him in jail if he did not pay a note he owed a machine man, committed suicide by hanging himself. It is styled "A rare case."

Powderly has definitely declined re-election as head of the K. of L.

TO THE ELECTORS OF THE ELECTORAL DISTRICT OF EDMONTON.

GENTLEMEN,—

Having been invited by a large number of the electors to become a candidate for the Edmonton district in the forthcoming elections for the legislative assembly of the North-West Territories, I have consented to do so. Having lived in your midst eight years, and having followed the pursuits while here upon which the prosperity of this district depends, farming and stock raising, I believe that in the interest of the North-West in general, and the farming districts in particular, there should be in the new assembly, at this stage of its existence, men having practical knowledge of the wants and requirements of those whom they represent, and on that ground I ask for your support.

Regarding the questions of responsible government and control by the representatives of the people of their money, my opinion and the stand which I propose taking if you honor me by electing me is that the act providing for the government of the North-West, although an improvement on matters as they existed heretofore, still does not give us that measure of government by the people, for the people, which they are entitled to, and which their position in the Dominion demands. Regarding the control of public monies by the representatives of the people, I believe that it would be more satisfactory to the people whose money it is, and more thoroughly in keeping with the principle of equitable and British government that the representatives of the people should have the control of the people's money.

Having interested myself as early as 1880 on behalf of the half-breeds who asked for scrip for children born since 1870, I can only assure you that if elected I shall do everything that lies within my power to obtain what I have so long advocated, and what I consider merely an act of tardy justice.

My views on the liquor question, after careful thought, are, that to obtain a satisfactory decision and settlement of this important matter, the question should be submitted to a vote of the people at the earliest possible time, and I pledge myself, if elected, to do all I can to bring about a change in the present unsatisfactory state of affairs.

I hold that all loyal settlers and all North-West mounted policemen who bore arms in the late rebellion should be granted scrip, and that a settlement of rebellion claims should be pressed upon the government, and that the great loss and hardship suffered by those who are deprived of their just claims should be strongly represented to the government at once.

I find it impossible, in the necessarily limited space of an address, to state at length my views on all the important questions before the people in the coming contest, but propose to see as many personally before polling day as possible and to attend all public meetings, when I shall be pleased to state my stand on all the public questions of the day. In asking for your support I can only assure you that I shall, if elected, faithfully redeem the pledges I have made, and attempt to the best of my ability to carry out the principles I advocate. And having, as I stated before, a personal knowledge of the requirements of an agricultural district, I ask for your vote and influence, and beg to remain,

Gentlemen, your obedient servant,

D. MALONEY.

EDMONTON BULLETIN, JUNE 16, 1888.

The Irish nationalists have suddenly found out that the pope is more astute in politics than they; and that his holiness' rescript is not against, but in favor of the national cause, and correctly interpreted means a more united Ireland. Those who were formerly loudest in denouncing in fiery language papal interference are now the meekest in submitting to his judgement in condemning the plan of campaign. The reasons for this change of opinion and action are two: First and foremost the utterances of Parnell in disclaiming sympathy with the plan, and, secondly, the manifesto of the bishops. The despatches imply that in consequence, the plan of campaign as a means in bringing about the national desires will be discontinued, and the more constitutional and sensible mode followed two years ago, again adopted. The manifesto of the bishops declares that "The recent decree was intended to affect the domain of morals alone, and in no way to interfere with the politics of this country." It further sets forth that assurances have been received from his holiness that "The one purpose was to remove those things that might in the long run be obstacles to the ultimate success of the national movement." These judgments, coming from two men opposite in religion but supreme in their respective realms of politics and morals among the Irish people will effectually change the present policy of the nationalists, as embodied in the plan of campaign to one that is more likely to secure for them the justice they claim is their due. The probabilities are the correct solution of the vexed question will be found in a liberal measure of local government, with the separation tendencies of the original home rule scheme expunged.

Senator Frye, of Maine, placed himself on record on the fisheries treaty in the American senate on May 29th, in a speech of blood and fire against everything British, Canadian and democratic. Canada was accused of driving United States fishermen to sea in storms; seizing and searching them on the high seas; putting armed men on board and confining captains and crews in the holds of their own vessels, while the American flag was flying over them. They were tried and prosecuted in colonial courts until the perils on shore were greater than the perils on the sea. The old score against England's attitude during the civil war was raked up again. The circumstances leading to the framing of the treaty of Washington in 1871 was rehearsed. He stated that "An old man was appointed commissioner, no more fit to cope with Sir Chas. Tupper or Sir John Macdonald than Mr. Bayard is with Mr. Joseph Chamberlain in diplomacy." The treaty was characterized as the most disgraceful surrender which the American republic has ever made in its whole history, not excepting the treaty of 1818. He concluded a most belligerent speech with the remark, "If we yield everything and the other nation nothing I deny that it is better to settle difficulties with friendly nations by negotiations rather than war. I say that a great republic like ours ought some time or other to stand for the right." It is amusing for Canadians who feel they have had their most valuable fishery privileges sacrificed to maintain peace between Great Britain and the United States, to hear the leading statesmen of the republican party characterizing the treaty as a most dishonorable, humiliating and cowardly surrender on the part of America. It would require a microscope of ten thousand times magnifying power to discover among all the articles of the treaty one that really means a surrender of any right the United States had before it was made. The give-away has been on the side of Canada. Nothing but possession, not only of all fisheries, but every thing else valuable to Canada would ever satisfy some of these ultra-American politicians. Men of this Maine senator's stamp are never happy only when frying over the fire of American greed every thing British. It might be a good thing for Canada if the treaty was rejected by the American senate. A new treaty could give away no more of our fishing privileges than this one has, and it might give less, besides settling the Behring's sea troubles. Badly needed capital for the republican party in the forthcoming presidential election is what the senators are after in this debate.

PRESENT DUTY.

The present is a period of foundation-laying in the North-West. Little more was done by the North-West council in the past than to frame local laws and distribute a small portion of the federal grants. But the time has come when this western country has developed beyond the age of swaddling clothes and asks to be treated with the respect due its age, and population. That it has not been so recognized the amended North-West law is proof. But the statement made by the premier that future legislation would be enacted and changes made on the recommendation of the legislative assembly seems to indicate that there will be a change for the better before the incoming legislature ceases to exist three years hence. If Sir John's statement is true, then on the forthcoming elections will depend the future of the Territories and by the men returned the foundation will be laid on which the superstructure of future government and administration will be built. There will never be such an opportunity presented in the future for the display of true patriotism, as in the next three years. The coming legislature will be chiefly new, from the governor down. The men assembling at Regina this fall will be strangers to one another, whose political leanings or intentions will be but little known; party lines or divisions will not have been formed and they will be, when first meeting, an undivided body of men sent by the people to make recommendations and legislate for them in the best interests of the country. Whether they will do this or not will depend altogether on the character and the ability of the men elected. If they are men of little principle, or mere partizans and self-seekers we may expect but very little practical patriotic work; but if they are men of sturdy independence of thought and character, truly loyal to British institutions, and pledged to conserve all that is good and right and for the best interests of the people we may look for good work from them. The true patriot will when occasion demands shake off the shackles of party and place country first, and it is such men we want to represent us at the present time. It would be deplorable to have the North-West legislature divided up on federal issues or party lines. We have our own public questions and requirements, and know our own needs better than any one in the east possibly can, and these questions can be settled and requirements met only by sending men of backbone, principle and courage. That the legislature will be divided goes without saying, as it would be impossible to bring together so many men of independent thought without differences of opinion arising and dividing them. But men true to their country and their constituents will not allow mere differences of opinion on some questions to balk useful legislation on others: We do not ever want to see in the North-West such a state of things existing as that just brought to light in the neighboring province of Manitoba. But if history is not to repeat itself in this respect the electors of the North-West must lay aside personal prejudices and party feelings and see to it that only men are sent to legislate for them in whose integrity and honesty they have the most perfect confidence. Sturdiness of character tells in legislatures as well as in private life, and men of strong and true character are the ones whose shoulders are best able to bear the burdens of the nation in critical moments. History will be made in the next three years. It is for the people to say at the polls of what nature that history shall be.

The *Morden Monitor* has got itself in hot water with its party for endorsing the legislation and general work of the Greenway administration, and recommending the conservatives to support government candidates when they are men who command the respect of both parties. The president of the conservative association in strongly written letter gives the editor a severe castigating for going against his party. It is refreshing to come across one party paper of sufficient independence to place the interests of the province before mere party. The west would stand higher to-day if all its journals were equally as honest and out-spoken as the *Monitor* is.

GENERAL.

The General Assembly of the Presbyterian church meets in Halifax on Thursday, June 14th.

F. Foye, his wife and three children, were burned to death in their own residence on the night of May 28th, near Gravenhurst, Ont.

Two convictions for selling liquor in violation of the North-West Territories act were made at Banff recently, to the tune of \$400.

Max Hepper, a Polander who shot young Adams while riding with him from Benton to MacLeod on June 1st, was arrested on the 4th by the mounted police and is now held for extradition.

The Greenway government will grant an average of \$188 to every school in the province as against \$82 per school given by the late Norquay administration. Economy by the present government seems to benefit education.

The Calgary Herald strongly advocates the construction of a line from Lethbridge to Calgary to connect there with the Alberta and Athabasca, thus giving a through line from the north to Montana; supplying Calgary with coal, and opening up the fine district of Alberta to settlement.

The farmers of Manitoba are rejoicing over the good crop prospects. There has been plenty of rain and the weather warm and favorable for growth. There is a much larger acreage under crop than last year, so that even with a yield per acre below that of the last crop there will be as much to export.

Mr. Royal is reported as stating to a correspondent of the Calgary Herald that he would be sworn in on his return to Ottawa as lieutenant-governor of the North-West, and arrive in the Territories in the beginning of July. He intends, if possible, visiting the agricultural fairs in the Territories this fall and making a trip to the far north next summer.

A report from Ottawa states that the committee appointed by the British association to investigate the physical characteristics industrial and social condition of the North-West Indians is making a vigorous effort to secure information from government officials and public men acquainted with the Indians of the Territories. They have a big contract on hand.

Lieutenant-Governor Dewdney is said to be Sir John's choice for minister of the interior, but the appointment is not to be made public until after the North-West elections. There is considerable opposition to the appointment among eastern Tories, North-West newspapers are, as a rule, in favor of it. One prominent Tory member of parliament stated: "It was like giving the keys of the house to the robber, and the combination of the safe to the burglar."

Scottish crofters to the number of 110 left Stornoway on May 14th and arrived in Winnipeg on June 3rd. They are reported by the Sun to be as fine a looking lot of people as ever set foot in Manitoba. Three young couples were married a few hours before embarking. Among the emigrants were an infant fourteen days old, and an old man of 70 years. They proceed at once to their location at Pelican lake, Southern Manitoba. They will only put in a few potatoes and a little barley this year.

Sir A. T. Galt stated to a gentleman in company with him from Ottawa to Medicine Hat, that there is a probability of the Galt road being built very soon. There were two reasons why the charter was not granted. One was that the application was made too late, and the other that it would be foolish to grant charters until the agreement with the C. P. R., abolishing monopoly, was sealed, signed and delivered. He claimed Sir John told him to go on and make all preparations for building the road as the charter would be granted next session.

A quack doctor of Victoria, B. C., known as "Professor Menzies," has been carrying on a lucrative business in selling Chinese girls for purposes of prostitution. He enticed two away from a reformatory for Chinese girls, rescued from a life of shame, and sold one in the city for \$150, and the other was smuggled across the border into the States, where they bring from \$300 to \$1,500. Although it has been known that this business has been engaged in by several parties for some time, yet the exposure in the Victoria Times has caused quite a sensation on the coast.

The following are the candidates in the field for the different districts in the Territories in the forthcoming elections as nearly as can be ascertained from our exchanges: Meosomin, Neff and Stevenson; Souris, C. Trever; Wolseley, B. P. Richardson; South Qu'Appelle, Davidson; North Qu'Appelle, W. Sutherland; North Regina, Jelly and Brown; Moose Jaw, Ross; Medicine Hat, Tweed and Annable; Calgary, Reilly, Cayley and Lineham; Red Deer, Dr. Brett and A. Brealey; Battleford, Clink and Clink; Kinisteno, Letellier, Capt. Meyers, Capt. Heey and A. Spence; Edmonton, Dr. Wilson, F. Oliver, S. Cunningham and D. Maloney.

TO THE ELECTORS OF EDMONTON ELECTORAL DISTRICT.

GENTLEMEN,—

In accordance with the request of a large number of voters I have the honor to offer myself as a candidate for the representation of this district in the legislature of the North-West Territories. As I am probably best known to most of you by the opinions that I hold on public questions, it is not necessary at this time to define them at great length or in minute particular.

The views that I have advocated in the past regarding responsible government for the Territories I still hold, and am glad to see that while a few years ago I stood almost alone in that matter, to-day, as I believe the result of the coming elections will show, these are the views of an overwhelming majority of the people of the North-West. Having made up their minds as to the prime necessity of getting the management of their local affairs into the hands of their own representatives, it remains for the electors to place in the legislature men who can be depended upon to work with intelligence, energy and success to that end.

My record, both in a public and private capacity, for many years past is before you, and on that I appeal to you for support. If in the past I have been unfaithful to any trust reposed in me, if I have not used my best endeavors to advance the interests of this district and the Territories at large, if I have dealt unfairly by any section, race, creed, or individual in the community, or if the endeavors I have made in the public interest have not been to a reasonable extent successful, I do not expect support. But if I have been faithful to every trust, if I have always worked to advance the public interest, if I have never dealt unfairly between section and section, between race and race, between creed and creed, or between man and man, and if my endeavors have reached a fair measure of success I ask for the support of every voter who desires to be represented honestly, earnestly, impartially and successfully, for his vote and influence to secure my election.

Respectfully yours,
FRANK OLIVER.

TO THE ELECTORS OF EDMONTON.

GENTLEMEN,—
The electoral campaign being now opened, I have the honor to inform you that I shall be a candidate in the present contest, and I do so at the request of an important section of the people of this district.

The actual limits of the district are too far apart to allow me to go and visit each elec-tor, as I wished to do, but I shall soon have the pleasure to see you at public meetings, when I will have the honor of addressing you.

My record as the representative of the dis-trict of St. Albert, at the council, is well known to you. I have done, independently, what I thought was for the best interests of my district, helping good measures and op-posing with all my strength what I thought was unfair.

The present form of government is not that which we have petitioned the federal government for. But it will have to be changed, and I pledge myself to do all I can in that direction.

I feel proud to say that the present school law has received my most hearty support; owing to my exertions and the help of a well thinking majority in the council, we enjoy at last a school law which meets with the ap-proval of all, irrespective of race and creed.

Owing to the considerable number of peo-ple in this part of Alberta, I asked that Lac la Biche and the surrounding country be set apart and formed into a separate district, with its own representative; since that has not been done, I shall request that approp-riations be granted according to the number of the people compared with that of the other districts.

The federal government has not yet an-swered the memorial moved by the council towards the granting of scrip to the half-breed children born since 1870 up to this day. But this demand is so legitimate and fair that, I have no doubt, with some more system, the government will grant it.

Gentlemen, should you give me the sup-port to which my past record entitles me I pledge myself, to-day, to use my influence towards securing the opening of new roads through the country which offers the best prospects to settlers, and the most accom-modation to trade and transport, and I shall moreover try and have the existing roads put in proper repair. I will do all I can to bring the legislature to use all their influence with the government at Ottawa to have pub-lic servants in the North-West Territories chosen from residents of the Territories.

I shall ask for larger grants for education purposes.

I shall ask that government contractors be held by their contracts to purchase, as much as possible, all the articles and provisions for which they contract, in the districts where these provisions are needed. A move to this effect would furnish the farmers and in-dustrials of each district with a fair chance to sell all their products easily and with greater profits, and would help a great deal to do away with eastern competition.

Finally, gentlemen, guided only by the strong desire of doing all the good I can to this district and to the Territories at large I shall act in all circumstance according to what duty, conscience and labor will dictate.

I have the honor to be, Gentlemen,
Your obedient servant,
S. CUNNINGHAM.

AUX ELECTEURS D'EDMONTON.

MESSIEURS,—
La campagne électorale étant ouverte, j'ai l'honneur de vous annoncer que, répondant au nom d'une partie considérable de l'électo-rat, je me port candidat pour briguer les suf-frages dans la présente lutte.

L'immense étendue du district me prive, à regret, du plaisir de visiter chaque élec-teur en particulier, c'est pourquoi j'ai res-

cours à la voie de la presse, pour le moment, espérant plus tard, pouvoir vous inviter à des assemblées publiques.

Mon séjour au conseil du Nord-Ouest n'a pas été de longue durée; mais il a suffi, je crois, pour vous démontrer que, toujours desiréux de promouvoir les intérêts gé-néraux des Territoires et celui de mon district en particulier, j'ai en toutes circonstances, donné mon ferme appui à toutes les mesures que j'ai jugé bonnes.

La forme de notre législature actuelle n'est pas celle pour l'obtention de laquelle j'ai travaillé; elle ne diffère de l'ancienne que par le nom et devra être changée. Comme les Autres Provinces de la Confédération nous avons droit à une législation libre et respon-sable, qui peut seule exprimer fidèlement les véritables volontés du peuple; aussi ferai-je tous mes efforts pour en obtenir l'établis-sement dans les Territoires.

Je me flatte d'avoir contribué, pour une large part, à la mise en force du système actuel d'enseignement qui, sauf quelques modifications, peut seul rencontrer les vues tous sans distinction de nationalité ni de croyance.

Les nouvelles limites électorales de ce District ne sont pas celles que nous avons suggérées au Gouvernement d'Ottawa; le nombre considérable d'habitants qu'elles contiennent donne droit à plus de représen-tation, je promets donc de travailler sans relâche à obtenir un représentant de plus pour le District.

A force de travail et de démarches, j'ai re-quis avec l'aide de mes collègues, à Regina, de faire adopter par le Conseil un Message adressé au Gouvernement Fédéral demandant l'émission de scrips en faveur des enfants Métis nés depuis 1870 jusqu'à ce jour. La question est encore pendante; mais cette demande est si légitime et si juste que, j'en suis convaincu, le Gouvernement ne manquera pas de l'accorder.

En outre des questions qui président et pour le règlement satisfaisant desquelles je promets de faire tous mes efforts, je m'en-gage, de plus, spécialement de travailler: à faire ouvrir des routes, les plus propices à la colonisation, les plus utiles au transport et au commerce et à faire améliorer celles qui existent déjà;

A obtenir pour cet immense district des appropriations proportionnelles au chiffre de sa population comparée avec celui de la po-pulation des autres districts.

A presser la Législature d'user de toute son influence auprès du Gouvernement d'Ottawa pour que les fonctionnaires publics dans les Territoires soient, à l'avenir, autant que pos-sible, choisis dans les Territoires et dans les districts au ils devront remplir leur charge;

Demandeur des subsides jadis considérables pour les écoles.

En cas de nouveaux désastres causés par les gelées de presser la législature d'assumer la dette de tous ceux des cultivateurs qui ont en des avances de grain de semence du Gouvernement;

De donner mon aide à toute mesure ten-dant à favoriser les constructions de chemin de fer et de lignes télégraphiques.

Demandeur que dans tous les contrats pub-lics pour approvisionnement et autres, le Gouvernement oblige les contracteurs à se procurer les articles qui font l'objet de leur contrat dans le district pour lequel ils con-tractent. Cette mesure aura pour effet de fournir aux cultivateurs et aux industriels de chaque district un marché suffisant pour écouler leurs produits avec facilité et profits raisonnables, et d'empêcher qu'ils ne soient sacrifiés aux faiseurs de spéculations de l'est.

Enfin Messieurs, uniquement guidé par le désir d'agir pour le plus grand bien de ce district, je m'engage à supporter tout mesure qui lui serait avantageuse et à combattre énergiquement toutes autres qui pourraient lui être préjudiciables.

Fort du passé et confiant dans l'avenir
J'ai l'honneur d'être, Messieurs,
Votre ob-sant serviteur,
S. CUNNINGHAM.

TO THE ELECTORS OF EDMONTON:

GENTLEMEN:—

The writs having been issued you will shortly be called upon to select two men to represent you in the legislative assembly. Having had the honor of representing the Edmonton district in the North-West council during the past three sessions, and having been requested by a large number of the electors to again present myself for election I have decided to appeal to you again and now ask for your support and influence.

My record in the council is well known to you all and upon that you are now asked to pass judgment. If you are satisfied that I have done my duty and carried out as far as possible the pledges made in 1885, you should I think again vote for me. I am pre-pared to stand or fall by my course since you elected me. As that course has been in the past, so will it be in the future. If you again honor me by electing me as one of your first representatives in the first assembly for the Territories my first and foremost aim will be to make the assembly as at present consti-tuted the last of its kind. In my opinion it is

no improvement upon the council, in fact a shade or two worse. Believing that we are fully entitled to a full provincial form of government I will endeavor to secure the same, and as your representative will com-promise on nothing less. The council in the name of the people definitely requested the Dominion government in 1886 to grant the Territories responsible government. Through some family quarrel among the M. P.'s from the Territories no action was taken. Again in 1887 the council repeated the request of 1886 and in answer to it we have been given what is called "An Assembly," but which is in reality nothing but the council with a new name. It was said in the house that the people of the Territories "Had a holy hor-ror of responsible government." If so then the council greatly misrepresented the views of their constituents. If you are satisfied with the prevailing condition of affairs, I most decidedly misrepresented you on this question; but when you elected me I was pledged to support responsible government and if again returned I will be found advo-cating the same measure.

The representation given this section is not what was asked for (both in 1886 and 1887) and not what it is entitled to, therefore it will be my aim to secure larger representation for the present Edmonton district; Lac la Biche, Victoria and adjacent country should return one member and Ed-monton and St. Albert two combined, or one each, divided. Alberta is increasing in pop-ulation, wealth, and industries faster than either of the other provisional districts, and cannot allow her representation to be re-duced to the minimum.

My views upon the question of license have already been placed upon record, and they have not changed since then. Briefly: I believe in repealing the present inoperative law. The introduction of a license law of the most stringent and highest kind, leaving to the people of each provisional district the power of introducing the Canada Temper-ance Act whenever a majority of the electors so desire.

The representatives of St. Albert and Prince Albert, along with myself succeeded after a struggle extending over two sessions in passing a memorial asking the govern-ment to grant scrip to all Metis children born in the Territories since 1870. The coun-cil also asked for scrip and medals for the N. W. M. Police and "home-guards," and an immediate settlement of all rebellion claims both as to loss and accounts against the gov-ernment for goods supplied, work done etc., according to contract. I regret that these recommendations were not acted on, but be-lieving that they are only just and fair it will give me pleasure to again move in the same direction.

The district has received its full share of all funds over which the council had control, as well as its share of the monies voted by the federal government for roads in the North-West, and in the expenditure of these funds it has been my endeavor to treat all sections of the country in an equitable man-ner.

The district being so large and its settle-ments somewhat scattered it will be impos-sible for me to make a personal canvas be-fore the election, but I hope to have the pleasure of addressing most of the electors at the various settlements and explaining more fully my views upon these and other important questions. In the meantime I will briefly mention a few of the points which if elected will be advocated by me as vigorously as possible. It is true that most of them do not come directly within the power of the assembly to deal with but as our representa-tives at Ottawa do not appear to exert their influence in our behalf, we can through the assembly memorialize the government and thus bring our wants to the attention of the powers that be.

1. That the government make a treaty with the Indians in the north, and also open a road from here to the northern country, thus giving not only Edmonton but Alberta a market for its produce.

2. That public buildings such as a court house, registry office, sheriff's office etc. be erected here.

3. That liberal aid be given to branch lines of railways in the Territories and more especially to such railways whose objective points are in the district. Also that the as-sembly have the power to charter railways, and no disallowance.

4. Improvement of the Saskatchewan river.

5. Increased postal accommodation for Edmonton and the north, including Lac la Biche and Athabasca Landing.

6. The building of a telegraph line from Calgary to Edmonton and Athabasca Land-ing.

7. Assistance to settlers from the old coun-try to the North-West.

In conclusion I have but to say that in the discharge of my duties as one of your repre-sentatives I have been guided solely by what I considered to be for the best interests of the country, without respect to class or party and if you select me again for one of your members the same considerations will still guide my course. If you are satisfied

with my course and desire me to again serve you, it will give me great pleasure to do so, and I will feel highly honored by becoming your representative, but if not elected my support as a citizen will be most willingly given in every way to those you elect, so long as they fight for the principles I have so feebly outlined.

I have the honor to be, Gentlemen,
Yours obediently,
H. C. WILSON.
